About Nature Discovery Park

Nature Discovery Park is Hong Kong's first urban biodiversity museum and sustainability-themed education park.

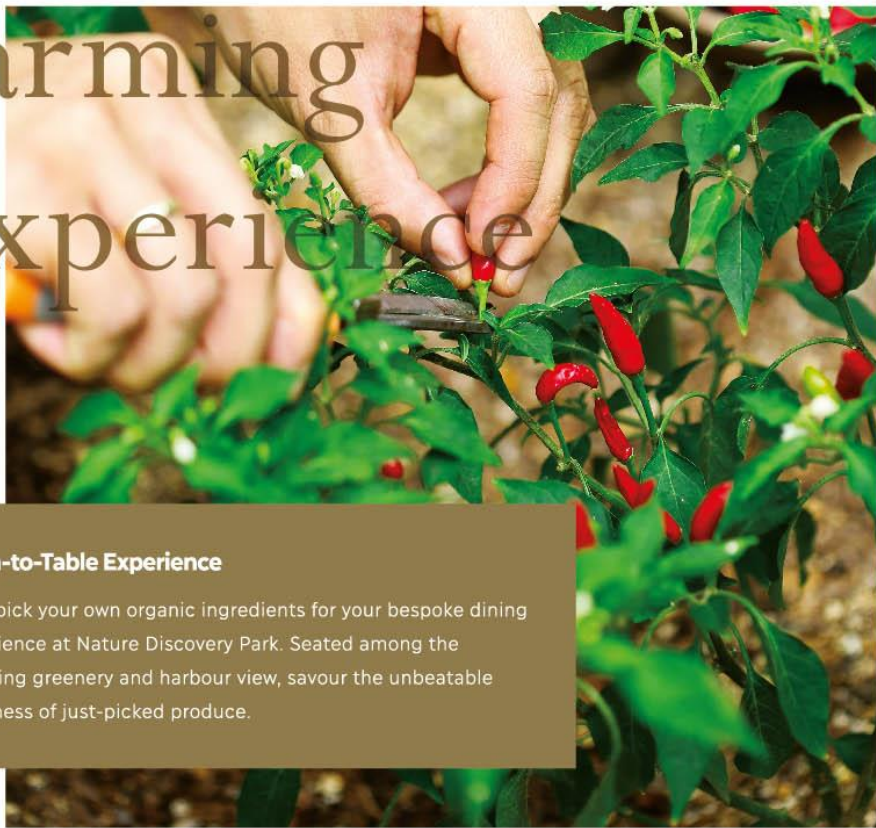

Showcasing Hong Kong's ecological importance and global value, it plays host to a variety of rare plants endemic to our shore, and also feature tropical and native plants, an aquarium and naturally attracted butterflies.

Community and business networking events are held regularly to drive action on the UN Sustainable Development Goals (UN SDGs) endorsed by the "New World Sustainability Vision 2030", with focuses on SDG3 - Good health and wellbeing; SDG4 - Quality education; SDG11 - Sustainable cities and communities and SDG17 - Partnerships for the goals.

Urban

Farming

Experience

Farm-to-Table Experience

Handpick your own organic ingredients for your bespoke dining experience at Nature Discovery Park. Seated among the stunning greenery and harbour view, savour the unbeatable freshness of just-picked produce.

Home Gardening for the Community

In support of charity partner – Food Angel Hong Kong

Get a taste of being an urban farmer while giving back to those in need! Learn how to start your own organic garden with an all-inclusive starter kit and step-by-step online content. Spread the love by donating your homegrown crops to local community kitchens.

Workshops

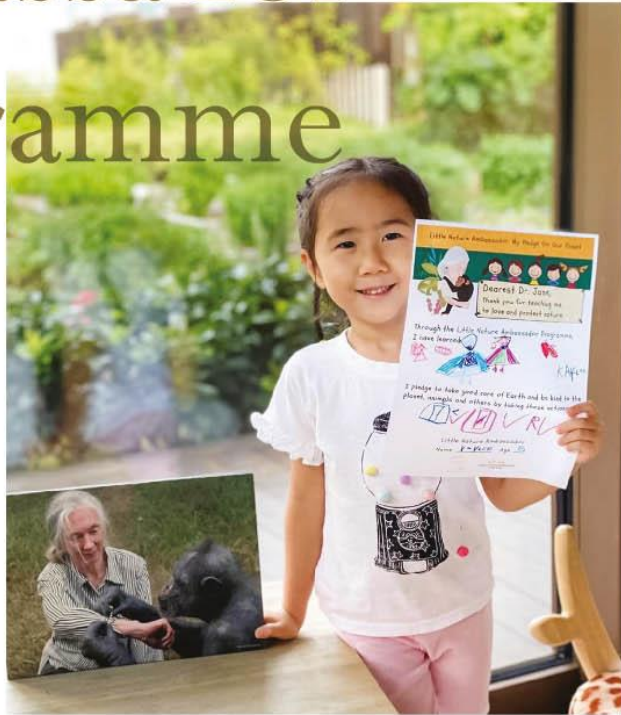

Jellyfish Experience

Bespoke jellyfish feeding experience including knowledge sharing on jellyfishes' role in the marine world, and interactive session on ocean conservation.

Stay tuned for more workshops that will inspire and empower you to adopt a sustainable lifestyle. Upcoming courses include 'farm-to-beauty' natural product making, mindfulness and wellness, healthy cooking, and more!

Little Nature Ambassador Programme

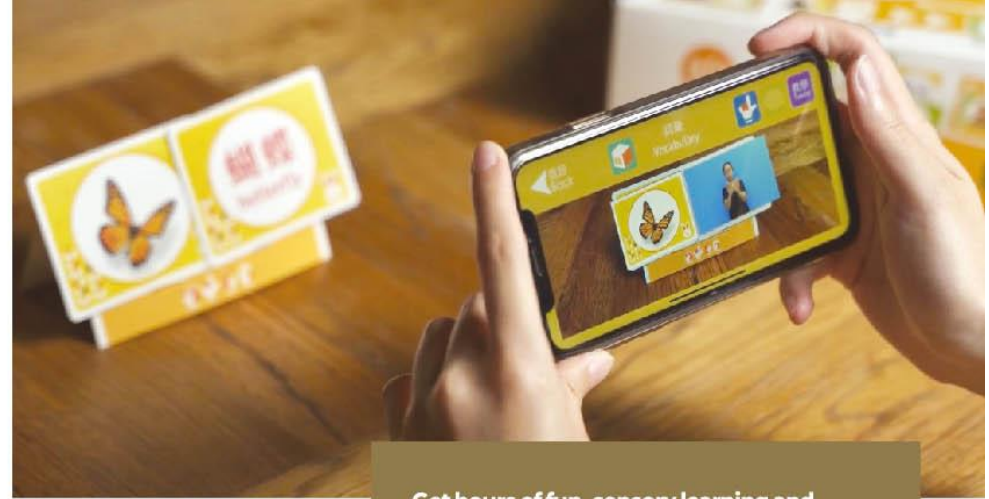

The mission of the the "Little Nature Ambassador Programme" is to nurture a new generation of sustainability changemakers. Through interactive content that includes nature exploration, sign language and tactile experience, children will discover the mysteries of nature and be motivated to care about the environment. Children will also develop skills to lead with empathy through concepts of social inclusion.

Co-curated with

 the Jane Goodall Institute
 Hong Kong

Founded by the UN Peace Ambassador, Dr. Jane Goodall, to inspire communities across the world to take action for people, animals and the environment.
